

Tokyo Metropolitan Parks Map

The Bureau of Construction of the Tokyo Metropolitan Government manages relatively large sections of parks in Tokyo, including Ueno Park and Inokashira Park. It also includes cultural property gardens, zoological gardens, botanical gardens, and large-scale cemeteries.

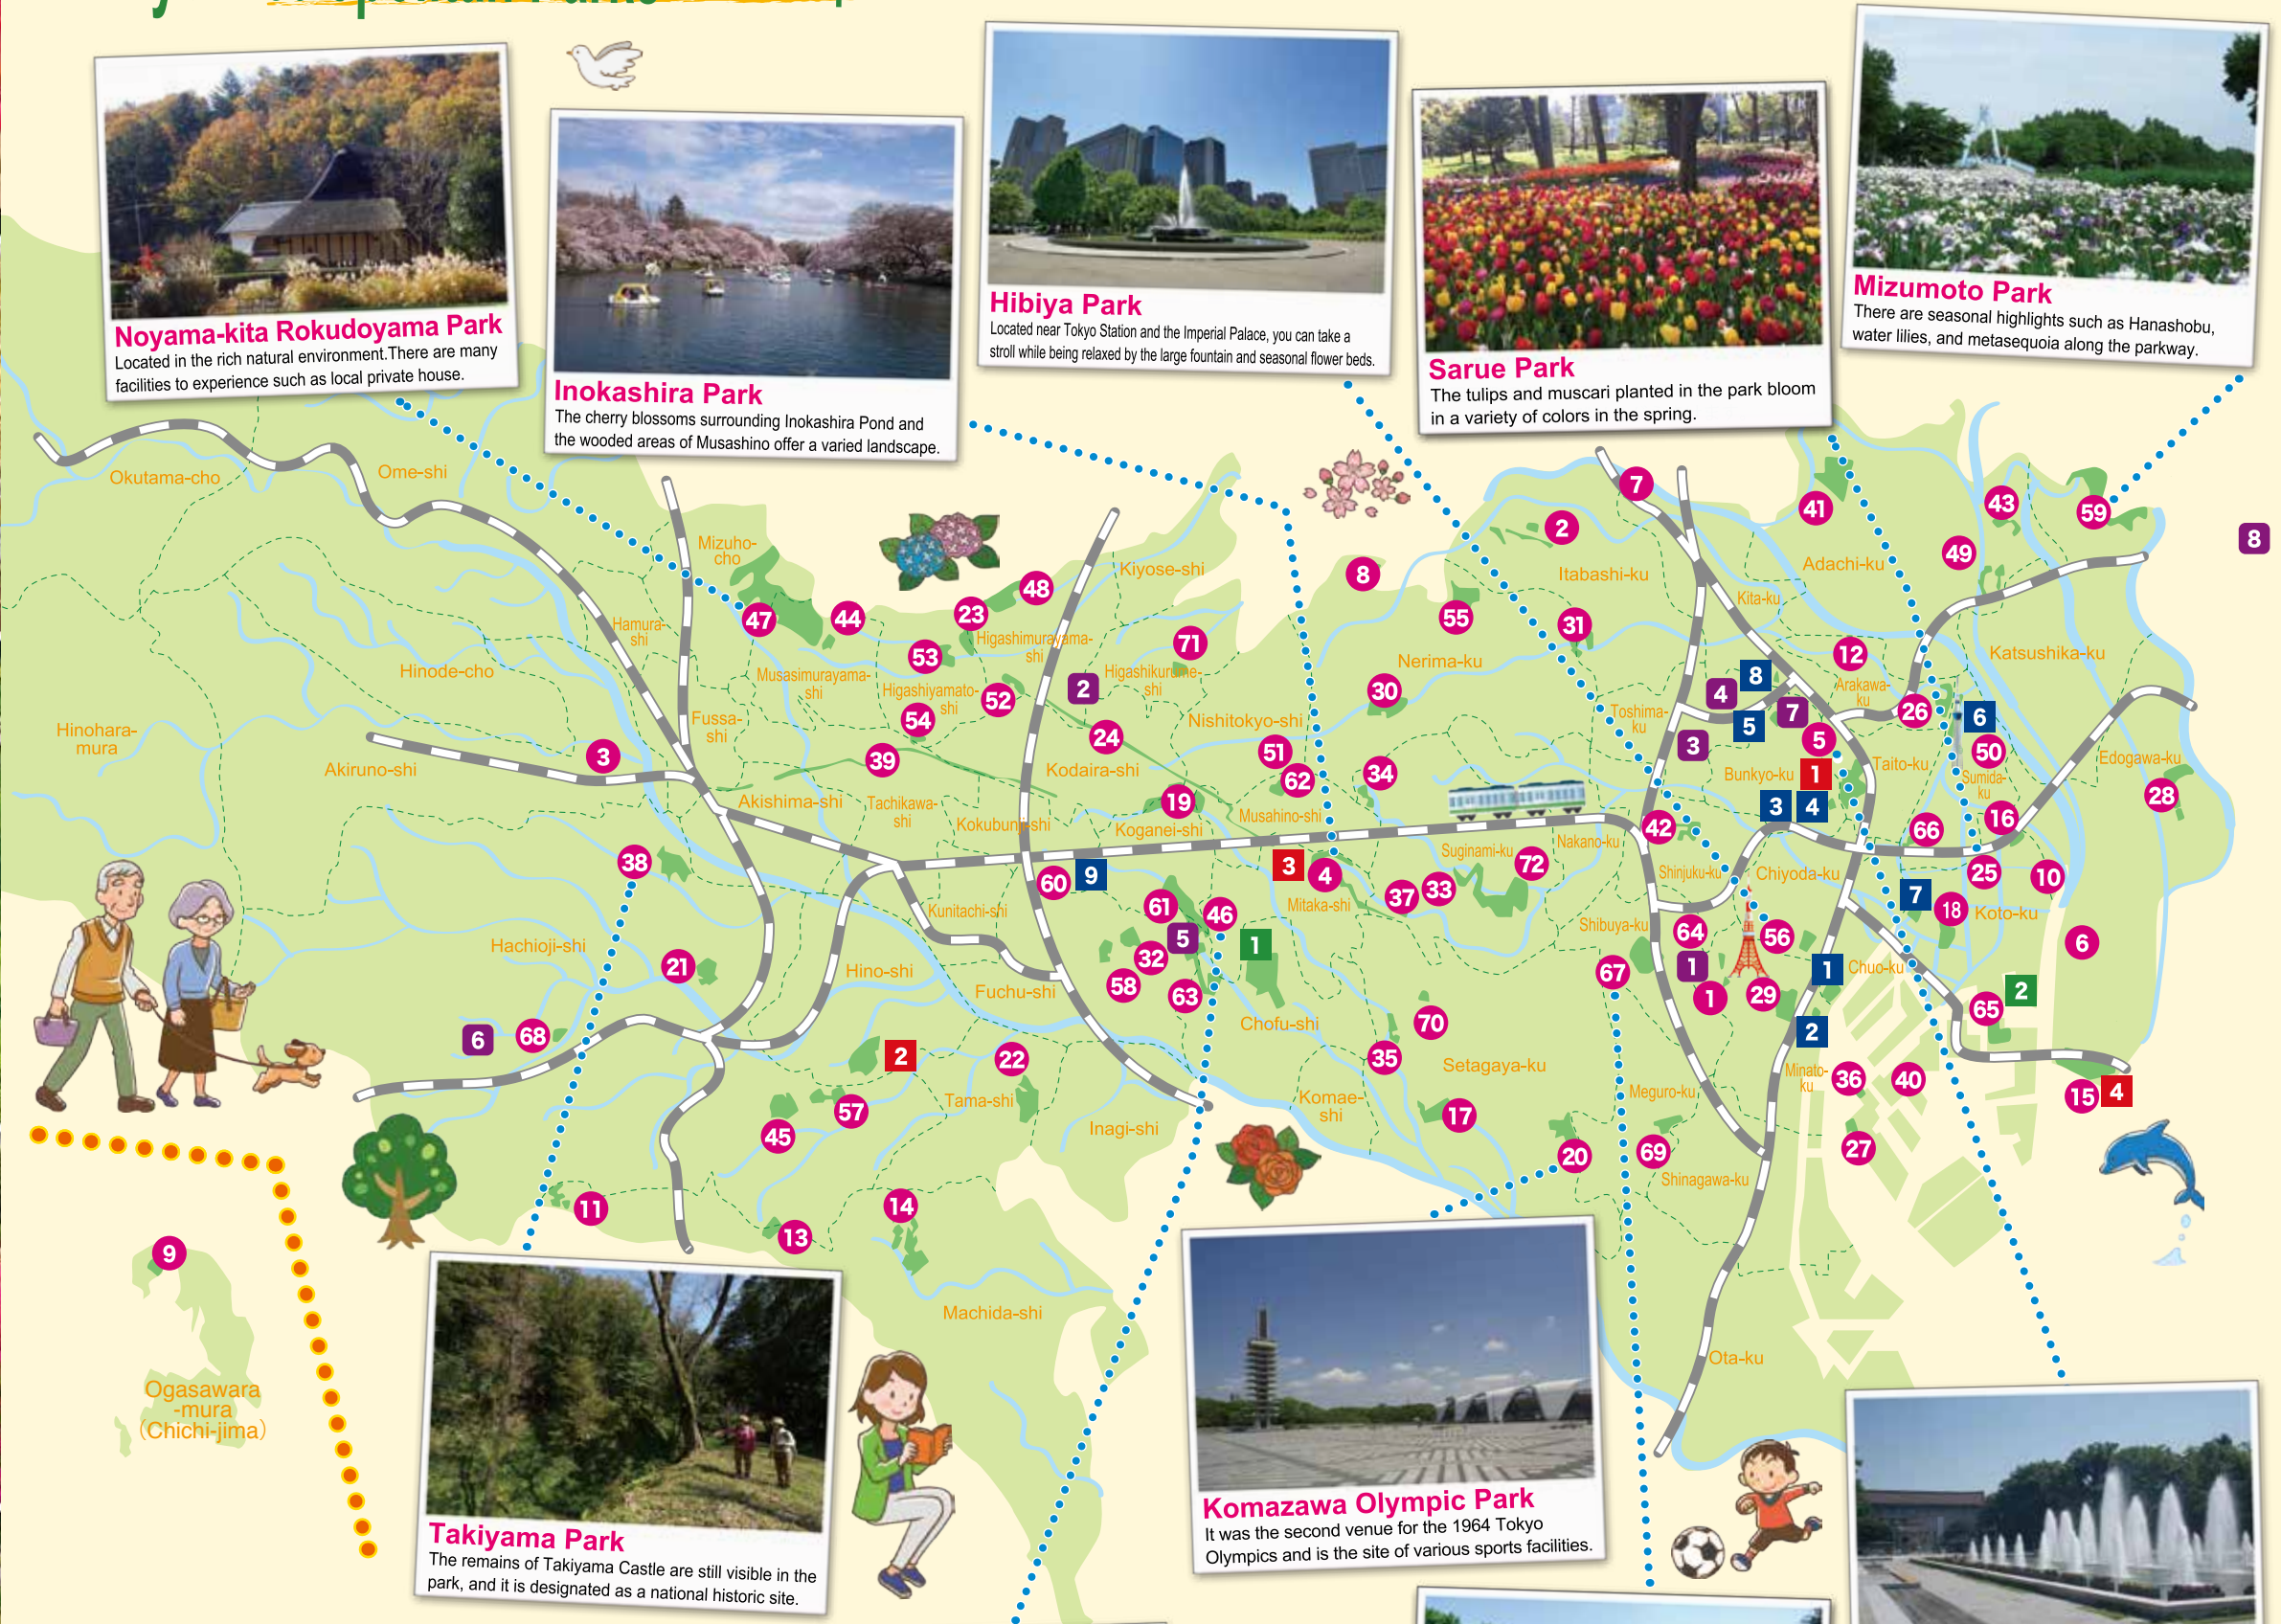

In addition, the Tokyo Metropolitan Government also manages nature parks, which protect and preserve beautiful natural scenery, and marine parks, which utilize reclaimed land in the Port of Tokyo and provide a place to enjoy the sea.

This map focuses on the parks managed by the Bureau of Construction, and provides information on each park and fee-based facilities, as well as access to each park's website.

We hope that you will use this map as an opportunity to learn more about the various metropolitan parks and enjoy the lush greenery, spaciousness, seasonal flowers and trees that only large-scale parks can offer.

Tokyo Metropolitan Parks Area Map

- Parks
- Zoos&Aquarium
- Botanical Gardens
- Gardens
- Cemeteries

For access details and the latest information, please check the website of each facility.

Parks in Tokyo
<https://www.kensetsu.metro.tokyo.lg.jp/english/jigyo/park/01.html>

Nogawa Park
At the Nature Observation Garden, you can learn about the lush nature along the Kokubunji Cliff Line.

Yoyogi Park
Located next to Meiji Jingu Shrine, you can enjoy the rich nature even in the center of the city.
